

Every Voice Matters

YOUR GIFT ENABLES US TO ORGANISE CAMPS, LEARNING SPACES, AND PILOT PROJECTS FOR AAC USERS

Our Goal

Every voice is important and deserves to be heard.

This November, ISAAC Singapore is launching our fundraising campaign with the goal of raising \$27,000 to support AAC users and their families. Your contributions will help make possible the AAC Also Can camps and meetups, AAC Can Share learning events, and a new pilot project for young adults utilising AAC. Together, let's amplify voices across Singapore.

Our Campaign Initiatives

1. AAC Also Can is a platform for persons who use AAC to meet other persons who use AAC. Through online and in-person meet ups, this is a space for persons who use AAC to support and mentor one another, and also just to hang out and have fun!

Funding Goal
To promote increased use of AAC in community settings and greater societal support for AAC users and their families, the AAC Also Can subcommittee will organize two types of events:
Smaller scale (online / in person)
Bigger event / Summer camp

Details of each are provided below:
1. Smaller scale events:
These events will take place in-person or online
Smaller scale events will be conducted 2 times each year (Feb/ March and Nov/ Dec).
Each of these events will target a maximum of 10 AAC users, and 10 Communication partners, supported by 6-8 volunteers/ community members.

2. Bigger event (Summer camp)
This event will take place in-person
The bigger event will be conducted 1 time each year (June/ July).
Each of this event will target a maximum of 20 AAC users, and 20 Communication partners, supported by 20-25 volunteers/ community members.

Our Campaign Initiatives

2. AAC Can Share is a group that focuses on sharing information, resources, and support related to AAC, to enhance communication and participation for individuals with complex communication needs. This may include training, workshops, and advocacy efforts to promote the use of AAC in Singapore.

Funding Goal
AAC Can Share was first launched in 2020 and relaunched in 2023. Since then, it has run five inclusive, peer-driven learning events under the ISAAC Singapore umbrella. These events feature a mix of panel discussions, personal sharings, and hands-on AAC demonstrations. They provide a rare space where caregivers, AAC users, and professionals can learn side-by-side.

Moving forward, we will build on this foundation by running three events annually. Funding will be used to invite a broader range of speakers (including AAC users), cover venue and technology costs, and expand opportunities for hands-on learning with AAC systems. Our approach is grounded in lived experience and community feedback, with strong volunteer retention from past sessions. This model of collective learning is unique in Singapore, where AAC training remains mostly professional-led and classroom-based.

3. Pilot Project Funding Goal (no name for this pilot yet)
Target of \$3k for us to start running a pilot project where we support our post-18 community of PWU AAC to improve vocabulary and semantics. This budget would be set aside to hire a professional who would be able to teach/guide the PWU AAC.

Impact stories

"Volunteering for the AAC Summer Camp with ISAAC-Singapore has always been something close to my heart. I chose to return as a volunteer because I'm passionate about helping AAC users connect with others in meaningful and joyful ways."

Jessica Low, ISAAC-Singapore Volunteer and Speech Therapist

"Coming on board as a volunteer with ISAAC-Singapore has been a truly enriching and eye-opening experience. As a Rotaractor, I've always believed in "Service Above Self" and the importance of creating meaningful connections with the communities we serve. Volunteering with ISAAC-Singapore allowed me to experience this vision in action through inclusive communication, collaboration and compassion."

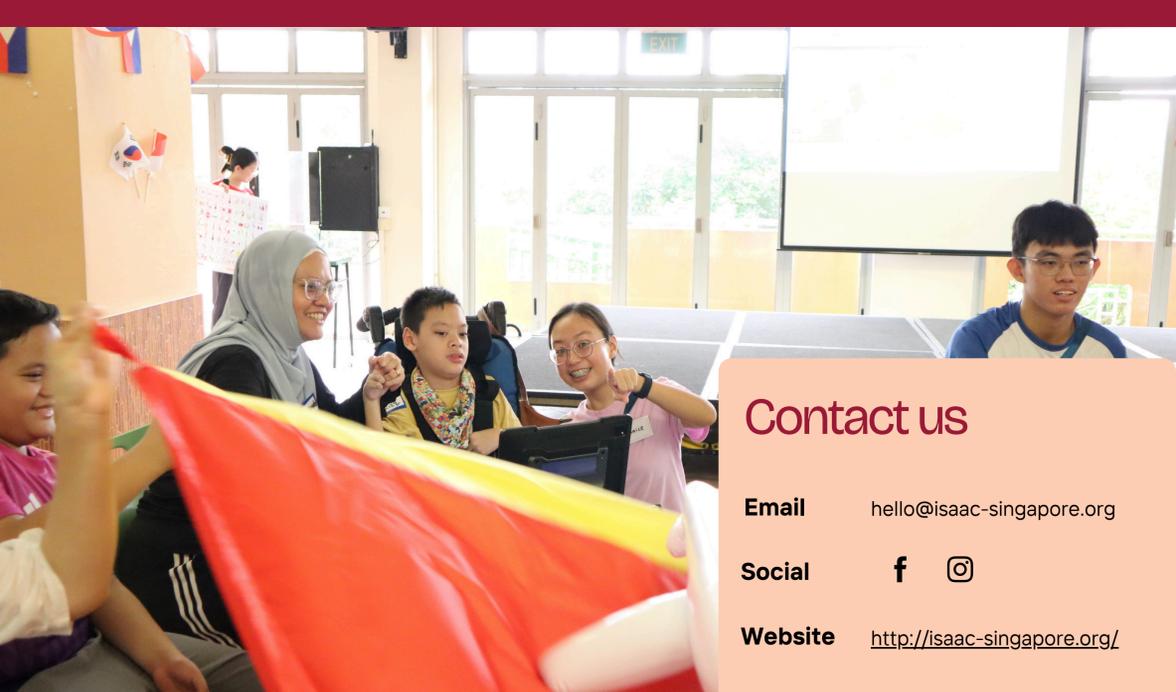

Faun, President of Rotaract Club

"At AAC Also Can Events: It was beautiful to see the AAC users having a safe and relaxed space where they could be themselves and interact with their families and the volunteers using their devices."

Dawn Yip, ISAAC-Singapore Volunteer and Speech Therapy Student at SIT
